Sport Zone!

Members weekly email - Week 11 (2011/2012)

24th November 2011

Dear Cathryn,

As a busy training spell is gradually coming to a close we will be focusing back on resource development....although I hope all of you who have requested material over the past few weeks have been happy with the resources we have produced.

I have attended an Edexcel update session this week (re the new level 2 specifications) which will be live in the spring term. Although they will not be applicable until September 2012 we will be looking at them in depth (once the drafts are released) and making decisions as to how they will impact on the material we produce. We will then be in a better position to consult with the Sport Zone membership as to the most effective way forward.

We will also be updating you on all the other changes when the picture is much clearer.

In the meantime we continue to post links on our [Facebook](#) page & produce material for the current specifications. To this end, this week's support material ([Spot the difference](#)) looks at the difference between the two rugby codes (union & league). The material is useful for both level 2 & 3 cohorts and ideal learning (and possible assessment) resources for the following units:

- Unit 1 – Fitness Testing & Training (level 2)
- Unit 2 – Practical Sport (level 2)
- Unit 3 – Assessing Risk in Sport (level 3)
- Unit 20 – Talent Identification & Development in Sport (level 3)

The material is also potentially useful for a range of other units....so seize the opportunity!

We are currently helping a few members with the LIV material – so if you want to bounce your idea of someone you know where we are!

Have a good week....

Ian & James
